SKILLS

- ❖ HTML, CSS, Javascript
- ❖ C programming
- ❖ Python programming
- ❖ Data structures through c

EDUCATION

- ❖ CSE(ALML) | Vardhaman college of Engineering,Hyderabad
- ❖ XII (Intermediate) |Sri chaitanya jr kalasala,Ecil 97.9%|2023
- ❖ ssssX (SSC) | Ekashila Public School,jangaon 100%|2021

ACADEMIC PROJECTS

❖ Banking system

In this project we have created a basic banking system in C involves defining a structure for customers, managing accounts , and implementing basic operations like deposits, withdrawals, and balance checks

❖ *Queue based simulation of supermarket checkout*

Developed a simulation of a supermarket checkout system where customers queue up to pay for their items. The program should manage multiple checkout counters, dynamically allocating customers to available counters and tracking waiting times
